Issued September 24, 2026 · Verification code MC26-0K7O-P2V · Module v3.0.2

This certificate attests knowledge and clinical reasoning demonstrated by written assessment in a self-paced module. It does not attest competence to diagnose or manage inborn errors of metabolism independently, confers no licence or clinical privilege, and is not a substitute for supervised training with a metabolic team. It is not endorsed by BIMDG, IAP, NNF or any other body. No CME credit unless separately accredited. The verification code is deterministically re-derivable from the displayed figures — it is not tamper-proof.
